

Pollinator Plant Resources

For online resources on hedgerow design, plants for native pollinators and related topics:

Community Alliance with Family Farmers:

www.caff.org/programs/farmscaping

- Hedgerows for California Agriculture (pdf)
- Hedgerow Brochure (pdf)

Wildfarm Alliance

www.wildfarmalliance.org

- Biodiversity: What it is, and how to increase it on your farm (pdf)
- Briefing papers, including “Wild pollinators: agriculture’s forgotten partners”

Xerces Society

www.xerces.org

- Fact Sheet: California Bee Plants
- Fact Sheet: Native pollinators on the farm: what’s in it for growers?
- Brochure: Farming for pollinators
-

For information on invasive species:

California Invasive Plant Council’s Responsible Landscaping website:

www.cal-ipc.org/landscaping

PlantRight website:

www.plantright.org

Some local nurseries with CA native & other appropriate plants for pollinators & beneficial insects:

California Flora Nursery, Fulton, 528-8813, www.calfloranursery.com

Center for Social and Ecological Stewardship, Windsor, 838-6641, www.cfses.org

Cornflower Farms, Elk Grove, 916-689-1015, www.cornflowerfarms.com

Emerisa Gardens, Santa Rosa, 525-9600, www.emerisagardens.com

North Coast Natives Nursery, Petaluma, 769-1213, www.northcoastnativenursery.com

For consultation on sustainable farming, land stewardship, and ecological restoration projects (including hedgerow & pollinator designs & plans), contact:
